

# When the Party Ends (Can't Hardly Wait)

The Summer Set

We are the last one's standing at the after party  
And I want to take off your clothes like we just got married  
So come on, run through the streets singing, "No Surrender"  
Cause right now, you're looking in my eyes like we'll live forever

But I don't know, know what happens  
When we all go, oh, what's waiting on the other side?  
Just give me a hint tonight

And tell me where you wanna go  
Baby, when the party ends  
Even when our memory fades, the world stops  
We can't hardly wait to grow old

Still hear that song  
Drive it home with one headlight  
And I knew that I could see my faith in your eyes  
We can't hardly wait to grow old  
Yeah, when the party ends  
(Yeah, when the party ends)

I got a pocket full of spliffs and a flip top lighter  
And we'll get high 'till we stay 23 forever  
But I know, if we both come down and we wake up 65  
That I will still see your face like I did the first time

But I don't know, know what happens  
When we all go, oh, what's waiting on the other side?  
Just give me a hint tonight

And tell me where you wanna go  
Baby, when the party ends  
Even when our memory fades, the world stops  
We can't hardly wait to grow old

Still hear that song  
Drive it home with one headlight  
And I knew that I could see my faith in your eyes  
We can't hardly wait to grow old  
Yeah, when the party ends  
(Yeah, when the party ends)

But I don't know, know what happens  
When we all go, oh, what's waiting on the other side?  
Just give me a hint tonight

And tell me where you wanna go  
Baby, when the party ends  
Even when our memory fades, the world stops  
We can't hardly wait to grow old

Still hear that song  
Drive it home with one headlight  
And I knew that I could see my faith in your eyes  
We can't hardly wait to grow old  
Yeah, when the party ends

Yeah, when the party ends  
Yeah, when the party ends
