## **Buttered Popcorn**

## The Supremes

My baby likes buttered popcorn He likes it greasy And sticky And gooey And salty I said what do you like He says you know what I like I like buttered popcorn

He took me to a show He said he wanted some more I said kiss me please He said after I eat

I said what do you like He says you know what I like I like buttered popcorn

For breakfast, lunch and a dinner too He eats buttered popcorn Well it worries me so I don't know what to do When I asked him what was happenin' in the world today He said more butter, more butter, more
