

Her Room

The Tiger Lillies

People with cigarettes,
Singers with violets
Some who have no regrets
In her room

Men with no hair
Girls in their underwear
Boys who are debonair

In her room, In her room
In her room, In her room
In her room, In her room

Where are the fun times?
Where are the rum times?
Where is the sunshine
In her room

Looking for dog-ends
Picking up her friend
Looking for the end

In her room, In her room
In her room, In her room
In her room, In her room
In her room, In her room

Found her beat black and blue
With the words 'I love you'
Tattooed in rouge

In her room, In her room
In her room, In her room
In her room, In her room
In her room, In her room
