

# Slipped My Disco

The Tubes

Well, the joint was jumpin', maybe I got too high  
And the beat was familiar, my feet was too sly  
And I tried to hustle and tried to bump  
I was always steppin', when it was time to jump

My baby said quit, I told her I wouldn't  
If she asked me today, I'd say I couldn't 'cause I

Slipped my disco, he slipped his disco  
Slipped my disco when I was dancing with you, baby

I begin to wonder is it worth the pain  
Get so twisted that you wind up lame  
Maybe it's my technique or is it my shoes  
Just another white boy with the disco blues

Sometimes my body does things that my brain don't understand  
I'm not the man I was but my feet still think I am  
And the doctor's busy, he's checkin' me out  
He called me crazy to jump and shout

I said, one more number doc, just one more tune  
Let me out of this emergency room and I

Slipped my disco, he slipped his disco  
Slipped my disco when I was dancing with you, baby

I begin to wonder is it worth the pain  
Get so twisted that you wind up lame  
Maybe it's my technique or is it my shoes  
Just another white boy with the disco blues

I begin to wonder is it worth the pain  
Get so twisted that you wind up lame  
Maybe it's my technique or maybe my shoes  
Just another white boy with the disco blues
