

## In My Zone

### The Underachievers

Any leadership that teaches you to depend upon another race is a leadership  
that will enslave you  
Any leadership that teaches you to depend upon another race is a leadership  
that will enslave you  
They gave leadership to our fore parents and that leadership made them slave  
s  
But we have decided to find a leadership of our own to make ourselves free m  
en

The second coming can't kiss the ring of the lord's hand  
The prophecy was fulfilled you looking at God's plan  
These niggas fragile we step on beetles like nomads  
The desert eagle will thread the needle lets get the cash  
I'm smoking good gas writing next Sunday's mass  
I treat the booth like the pulpit but I'm preaching facts  
You know the devil trapped the heat burning nigga's soul  
These dummies plunging from their summit like geronimo  
Solace is solid gold, bullets sonic spirals  
Legend since the zygote  
Poetic with the haikus  
The young prince, the melanin night skin  
The lion of Zion who light saber strike lightning  
The hood's a trap and the cheese is catching the rats  
I maneuver through the rodents like Garfield the fucking cat  
I could tutor stupid students changing the way they act  
I refuse to stoop to losing myself the fake will collapse  
Just be me and shorty riding in that thing all black  
Every time I hit the FM it be same old raps  
Niggas love to follow lead they sound like slaves on tracks  
I'm Django with the grip upon my horse blue slacks  
I'm Anakin Skywalker same city as Shawn Carter  
The infinite fly talker slept on like Trav Barker  
But the pockets look awoken the game is looking like clones  
I'm standing here all alone  
Gifted inside my zone

When I'm alone in my room sometimes I stare at the wall  
And in the back of my mind I hear my conscious call  
Confidence lost, blowing just like an exhaust  
Was a young bull with the strength nigga no weakness at all  
Well that's a lie cause in my mind I had to deal with my flaws  
Zero degrees up in my heart me and my feelings divorced  
I hit the block the coppers fight us like they Steven Seagal  
Them vibrations getting crazy and you didn't even call  
But I continue cause Christ is in you, not Jesus alone  
What's on my menu? Kill every venue and leaving just bones  
Cause I refuse to condone, stupid shit you niggas on  
Ludicrous lil bitch be gone  
I ain't amused by your songs  
I close my eyes, my soul is feeble  
Look inside you hold the key  
Fuck them lies don't go to priests, she hypnotized by all this weed  
I rectify my demons seed  
Put pesticide on all you fleas  
Undivided we elite  
But you can share the throne with me

Remember nights I used to wish to be up in the game  
I'm built for this I feel the blood flowing through every vein  
I tell my niggas handle biz I come back with them rings  
I form my fist, then wrote a list, and I want everything  
Remember nights I used to wish to be up in the game  
I'm built for this I feel the bluff flowing through every vein  
I tell my niggas handle biz I come back with them rings  
I form my fist, then wrote a list, and I want everything
