

# Another World

The Vamps

People like to talk  
But I can't understand a word they throw to us to the worlds  
But I can't say I'm stronger now my back against the wall  
I'm drifting door to door  
No I can't rest

We just lay away  
You told me now, is it you want me  
Stupid mistake  
'Cause I can't get you off my mind  
I'm drifting day to day  
I just stay awake, no I can't sleep

I close my eyes  
And you are here  
With me tonight

In another world lord I know I know that  
You would be my girl  
And nothing would tear us apart  
Another universe the stars would light the way for just the two of us  
Two of us  
And nothing would tear us apart

In another world  
Just the two of us

Special place and time  
I put it in the bottle like back there in my mind  
I'm up above the clouds that like to  
Crashing back to earth  
'Cause I know this can't work  
It's when it hurts

I close my eyes  
And you are here  
With me tonight, tonight

In another world lord I know I know that  
You would be my girl  
And nothing would tear us apart  
Another universe the stars would light the way for just the two of us  
And nothing would tear us apart

In another world  
Just the two of us

And nothing would tear us apart

I just close my eyes  
And you're here with me tonight  
And nothing would tear us apart

I just close my eyes  
Can't get you off my mind  
And nothing will tear us apart  
In another world the stars would light the way for just the two of us

And nothing would tear us apart

People like to talk

But I can't understand a word they throw to us to the worlds
