

It's Time To Rock (ok)

The Wedding

We drive all day and drive all night
You're a part of this fight
Don't let that sleeping dog lie, boy

Cause everywhere we go they want more
Than what the world can offer
Bring it back one more time

I can't keep quiet the things that I gotta say

They bring em in on stretchers and when they leave they're walking out.
That's what our God's about, ok?

Here we go, are you ready?

We're making strides we're doing fine
We're just starting to climb
You better get yourself in line

Cause we don't have time we're moving forward and we'll never stop
So make up your mind you're either with us son or you're not

Move over, move over
Cause you're starting to drag me down
And I, I won't let anything stop me now
Yeah stop me now

Take your place here with me
You know me there is nothing that I won't do
