

I Get Wicked

Thousand Foot Krutch

I could be nice but don't test me
I can get wicked
I get wicked, wicked
I get wicked
There's no escaping it
Wicked
You want to kick it
Watch me get wicked
Step up and get it
Because I get wicked

I'm a beast I came to rip this spot up
Stick to cons because the devil wears prada
We want peace but we can make this rally stop
We don't want to hurt nobody
You can't hang because my nature's nice
And my heart is for the people of the world tonight
If you got a problem with it take it up with life
Because if you push me it ain't going to be nice

I get wicked, wicked
I get wicked
There's no escaping it
Wicked
You want to kick it
Watch me get wicked
Step and get it
Because I get wicked

I am not afraid of this mountain in my way
You can push me to my knees I believe
And I am now awake
Uncontrolled and not ashamed
When it washes over me I feel free

P.S. don't play me like a 3DS
These cats can't see us they checking the wrong mirrors
Cavaliers, don't mistake kindness for weakness
They never wanted to hear us blow speakers
Spitting the trinity hook, line, and sequence
In your brain like a G6 no secrets
My fate is my life it's rolling the dice
If you try to push me it ain't going to be nice

I get wicked, wicked
I get wicked
There's no escaping it
Wicked
You want to kick it
Watch me get wicked
Step and get it
Because I get wicked

I am not afraid of this mountain in my way
You can push me to my knees I believe
And I am now awake
Uncontrolled and not ashamed

When it washes over me I feel free

I could be nice but don't test me

I get wicked, wicked

I get wicked

There's no escaping it

Wicked

You want to kick it

Watch me get wicked

Step up and get it

Because I get wicked

I get wicked when you come against me

So could you stop trying to push me around

Let's kick if you really want to touch fire

Come step up I'll bring you down

Step up and get it because I get wicked
