

Melt away

Tom Beck

Every time we've been together
you ask me how I've been
you never knew the words
to reply
You see the truth is that
I love you
There is more than this than I
That's the man that I am deep
inside
Cause you and I forever
words aren't so strong
you turn my head around
now my hands are tight
And every moment we've been
giving
you've been precious like rain
makes us feel alive
makes us running high
far away
/Cause girl when I look at you
As you lay there by my side
Makes me even more restrain today
That the man I was asked on a way
You know I love you
Yes I do
But I'm melt away/
I remebmer when I met you
I feel in your smile
if this is gonna by something big
but once you crossed upon a
romanze
and live your daily life
you have to suck it up and be
strong
Cause you and I forever
words aren't so strong
you turn my head around
now my hands are tight
And every moment we've been
spending
You've been precious like rain
makes us feel alive
makes us running high
/Cause girl when I look at you
As you lay there by my side
Makes me even more restrain today
That the man I was asked on a way
You know I love you
Yes I do
But I'm melt away/
Everytime we get close I
everytime I hold you I wanna
let you go
everytime I'm hopeless
you take all my sorrow
cause everytime I knock at
you door

Girl when I look at you
As you lay there by my side
Makes me even more restrain today
That the man I was asked on a way
You know I love you
Yes I do
But I'm melt away
Yeah you make me melt away
yeah you make me melt away
yes you do
