I Ain't Scared Of Lightning

I ain't scared of lightning Come on and do your worst If they gave degrees For cheating destiny

Then man I got a first

No, I ain't scared of lightning It's the same old empty threat I've been standing proud Beneath the gathering cloud

And man I ain't dead yet

No I ain't scared of lightning And thunder never killed I was born in a summer storm I live there still

Yeah, I was born in a summer storm I live there still

Tom McRae
