Black Swan

Ride on, ride on Friends of the black swan Ride on, ride on Do you know where she's gone Gumdrops and Saturdays Did Eric call by the way? He knew, he knew And he knew where the pillow goes

Ride on, ride on Friends of the black swan Ride on, ride on You know where she's gone Buttercups and fishing flies The biggest, thickest ever sky I know they know something I know, ah!

Ride on, ride on Friends of the black swan Ride on, ride on You know where she's gone

Little green men do O.K. It's the fairie's revenge they say Gumdrops and Saturdays Did Eric call by the way?
