## The Lord Of The Wasteland

**Toxic Holocaust** 

We've got the flame burnin' in our hands We've got the atom's power at our command

Put a gun to your head One pull you're dead Out here we live and die by death

We've got the ultra-violent force Take what we need without recourse

Overtake, overtake it all, The lord of the wasteland strikes

Still got the flame burnin' in our hands Got an atom's power at our command
