

# Drama Queen

## Trapt

I don't know a stronger personality  
I don't know another girl so hard to please  
Oh you make me wonder it's all a bad dream  
Until you make me closer my eyes as you make it up to me

You like a story with a twist  
Conflict, you cannot resist  
Don't stop until you get your wish  
My drama, my drama queen  
I taste the poison on your lips  
With every word that you let slip  
You keep that plot of yours so thick  
My drama, my drama queen

Wear your heart on your sleeve  
Wear it so I can see  
Go ahead and make a scene  
No matter how extreme  
My drama queen

You always take it further than anyone could know  
You have to have it all your way or you lose control  
Oh you take me under when your playing that role  
I will die a thousand deaths before I let you go

You like a story with a twist  
Conflict, you cannot resist  
Don't stop until you get your wish  
My drama, my drama queen  
I taste the poison on your lips  
With every word that you let slip  
You keep that plot of yours so thick  
My drama, my drama queen

Wear your heart on your sleeve  
Wear it so I can see  
Go ahead and make a scene  
No matter how extreme  
My drama queen

You got your claws in me  
I let you dig so deep  
You make it hard to breathe  
But I ain't surrendering  
I love to make you scream  
Just look at the marks you leave  
You know I'll always be  
The one who set you free

I don't a stronger personality  
I don't know another girl so hard to please

Wear your heart on your sleeve  
Wear it so I can see  
Go ahead and make a scene  
No matter how extreme  
My drama queen

My drama queen  
My drama queen  
My drama queen  
My drama queen  
My drama queen  
My drama queen  
My drama queen
