

Acting Crazy

tyDi

Watching all the constellations form over head
Through the trees full moon rises and lights my bed
And I'm awake and up on my feet
Got to be near you i'm running barefoot down the street

You've got me acting crazy and I wanna dance
Caught in the moment come on lets take a chance
You've got me acting crazy and I wanna dance
Am I crazy, am I crazy?

Rain is running down the window of this cafe
Outside you check your reflection then walk away
And now my heart beats rising inside
Got to get near you
You're running circles round my mind

It's not like me to go all weak at the knees
To lose my mind whenever you appear
But I can't think straight or hide my crazy side
Get drunk on this desire
