

Mind Games

tyDi

I've heard the rhyme
and I've seen the signs
All down in the ground beneath me, swallows up and time

Inside your mind
Waiting for the right time
It's so divine
And I've seen the light

I'll be alright, it's getting brighter
I slow down and the sound of empty is coming from behind
I slow down and the sound of empty is coming from behind
I slow down and the sound of empty is coming from behind

And you have all of Me
From the inside
And you have all of Me
From the inside
And you have all of Me
From the inside
And you have all of Me
From the inside
From the inside
