

You Have Fallen From Grace

Unter Null

My final offer to you
One pound of flesh
One pound of sin
These deeds have gone unjustified
You entered forceful into my life

I've nothing more to offer
While, you take more, and more, and more

I can't face the day
You hid the sun
And everything is dark again

You broke my heart
Tore me apart
You broke me down
You broke me apart
You broke me down
I hope you rot
