

# Love 'em All

Usher

I'm alone in this room The only thing that's on my mind is you  
I can't lie and say that I don't hear your call at night  
That's something for 'ya Got plenty to go around  
I guess I gotta remind you how I put it down

There's too many women in here and i wanna  
Love em all, Love em all, Love em all  
And i just cant pick one out of them so imma  
Cut em all, Cut em all, Cut em all

There's enough of me to go around up in this club, yeah  
And there's enough of me to make sure i pleasure all these girls in this club, yeah  
Im gonna make sure its fair  
Gone do you and you and you And then Im gonna do her  
Okay lets get it straight up Ladies get in line, yeah  
Imma take you back to school Just raise your hand girl

These girls are gonna hate me if i give too much attention to one girl, yeah  
So i might just have to double up, no triple up to make it through these girls, yeah  
You kiss me here, touch me there, you move over, bring her here  
All aboard, get up on this plane I gotta 7/47 kinda love girl
