

New Year

Vanessa Paradis

The new year has finally arrived
Innocent with silken unmarked skin
Only for a moment then it flies
And the sound of the tattoo begins

Breathing softly
It will get to the core

Breathing softly
It will get to the core

It's indelible
All you need to know
Indelible on the body of your soul

Everything is relative in time
The scars will heal and then what will remain]
We're left with a mysterious design
A beautiful reminder of the pain

Breathing softly
It will get to the core

Breathing softly
It will get to the core

It's indelible
All you need to know
Indelible on the body of your soul...
