

# Heaven Is Where The Heart Is

Victor Wooten

Close your eyes, my son  
Bow your head down  
There is not a time or a place  
That I am not around  
Through all your hardships  
And your most difficult times  
Something always pulled you through  
The hand you felt was mine  
If you won't  
Do fire there  
Well listen to me then  
You'll find it looking out  
You must look within  
Heaven is where the heart is  
Oh, don't you know  
Heaven is where the heart is  
He's still my child  
Now open up your mind  
I know the place your looking for  
And it's not hard to find  
Don't you try to hard  
(No no no)  
Just always do what's right  
(You know I will)  
I'm always here for you  
(Your always there)  
To help you gain the sight  
You've been looking for me  
But in the wrong place  
But look in the mirror  
Staring me  
Heaven is where the heart is  
I want you to know  
That I'm always there for you  
You just do you best  
There is nothing else to do  
Heaven is where the heart is  
Heaven is where the heart is  
Heaven is where the heart is  
Heaven is where the heart is  
Close your eyes my son  
And bow your head down  
There is not a time or place  
That I am not around  
If you won't find heaven  
But listen to me there  
You won't find it looking out  
You must look within  
Heaven is where the heart is  
Heaven is where the heart is  
Heaven is where the heart is  
Heaven is where the heart is
