

# Narrow Ways

Violent Soho

Feel my heart  
Skip along the odd days  
I got 1600 lies  
Now I'll mind my own

In your youth  
You think about the exit days  
I swear that I'll be there  
But I won't cry for long, shut up

Drift along the narrow way  
She don't want you anymore  
Now you are alone

Every single night the owls will get older  
Keepin' me awake, the hours go longer

Taste the skin  
Your father can remember  
The day you walked alone  
You screamed at the floor, shut up

Drift along the narrow way  
She don't want you anymore  
Now you are alone

Drift along the narrow way  
I got 1600 miles  
I wanna go home, yeah

And I'll keep it in my arms  
And I'll hold on it real light  
The only time you cried you thought it was done

Drift along the narrow way  
She don't want you anymore  
Now you are alone

Now you are alone  
Now you are alone  
Now you are alone  
Now you are alone

Now you are alone  
Now you are alone  
Now you are alone  
Now you are alone

Now you are alone  
Now you are alone  
Now you are alone  
Now you are alone

Now you are alone  
Now you are alone  
Now you are alone
