

Save Me

Vivian Green

He'll never yell or raise his voice to me
He's so gentle how he handles me
He loves me so different
It's amazing how he loves me

He's my Prince Charming ridin' a white horse
He rescued me, led me on a steady course
He's got love so, so different
It's amazing how he loves me

Now it's a bad dream that I'm livin' daily
It's like I'm caught up, up in this whirlwind
And I'm cryin' out, out from this nightmare
But after my sweetest dream, I wake up, I'm still here
Somebody

Somebody save me 'cause I keep wakin'
Somebody help me 'cause I can't get out
Somebody save me 'cause I keep wakin'
Somebody save me, somebody save me

Somebody save me 'cause I keep wakin'
Somebody help me 'cause I can't get out
Somebody save me 'cause I keep wakin'
Somebody save me, somebody save me

He told me I was top priority
He even said he'd give his life for me
Whenever see me hurt, see me cry
Tell me why

Why am I cryin' every night and day?
You're someone else, split personality
It must be 'cause you hurt me
I thought you never have to

Now it's a bad dream that I'm livin' daily
It's like I'm caught up, up in this whirlwind
And I'm cryin' out, out from this nightmare
But after my sweetest dream, I wake up, I'm still here
Somebody

Somebody save me 'cause I keep wakin'
Somebody help me 'cause I can't get out
Somebody save me 'cause I keep wakin'
Somebody save me, somebody save me

Somebody save me 'cause I keep wakin'
Somebody help me 'cause I can't get out
Somebody save me 'cause I keep wakin'
Somebody save me, somebody save me
(Save me)

Every day that I wake up is like a bad dream
This is a call of distress, somebody rescue me
I thought I could trust you, yes, I believed
But now I can see, who you really been

Somebody save me 'cause I keep wakin'
Somebody help me 'cause I can't get out
Somebody save me 'cause I keep wakin'
Somebody save me, somebody save me

Somebody save me 'cause I keep wakin'
Somebody help me 'cause I can't get out
Somebody save me 'cause I keep wakin'
Somebody save me, somebody save me

Somebody help me, somebody save me
