

Come Back to Black

W.A.S.P.

It is getting hard
For you to be
God of broken light
Will you be the martyr
Can't you see
We'll follow you for life

Come and walk on water
Let 'em see
The Chosen One's Alive
Won't be their father
Don't you see
They all believe your lies

Are you coming back
To the black where we hide
Are you coming back
I'll make you larger than life

Judas and Jesus we're
Prophecies here for all time
And with a kiss and the our
Destinies are sealed for life

Come back to black
Oh no don't you do it
Come back to black
Where you gonna go
Come back to black
No road to ruin
Come back to black
It's you only road home
Come back to black
Oh no don't you lose it
Come back to black
Where you gonna go
Come back to black
Your forever ruined
Come back to black
Oh your Neon God's home

Come back
To the edge of Heaven
Come back to black
Our prodigal son
Come back
Come back forever
Come back to black
Oh, the Prophet's home
