

Warzone
In your mind, in your dreams
In the real world
Warzone
Everyday you wake up
Roam the streets
Warzone
Must be strong
Believe in yourself
Warzone
And you will see
They lied to all of us
Never really cared about you
Step right on your grave
It's time that you
realize
They fucked us over again
The powers that be don't give a shit
Now I guess you know you're in a
Warzone
