## Looking at a Heart That Needs a Home

## **Waylon Jennings**

I'm just a stranger in this town I'm just a drifter looking round I might stay a lifetime or a week It all depends if I'll find what I seek.

You're looking at a heart that needs a home And a little girl to love me and me alone One who wants a gentleman and accepts me like I am You're looking at a heart that needs a home.

I thought I had found her many times But love reserves the right to change it's mind I guess perhaps my ways are strange But without this cast I can't change.

You're looking at a heart that needs a home And a little girl to love me and me alone One who wants a gentleman and accepts me like I am You're looking at a heart that needs a home.

You're looking at a heart that needs a home...
