Hard to find a way to get through It's a tragedy Pulling at me like the stars do You're like gravity Even if the wind blows It makes it hard to believe How yuo gonna love How you gonna feel How you gonna live your life like the dream you have is real And if you lost your way I will keep you safe We'll open up all the world inside I see it come alive tonight I will keep you safe Doesn't even matter to you To see what I can see I'm crawling on the floor to reach you $I\ '\ m\ a\ wreck\ you\ see$ When you're far from home now Makes it hard to believe So how you gonna love How you gonna feel How you gonna live your life like the dream you have is real If you've lost your way I will keep you safe We'll open up all your world inside Till you come alive tonight I will keep you safe We all fall down We all feel down Cause rainy days and summer highs The more we pray the more we feel alive How you gonna love How you gonna feel How you gonna live your life like the dream you have is real How you gonna love How you gonna feel How you gonna live your life like the dream you have is real

If you've lost your way
I will keep you safe
We'll open up all your world inside
So you come alive tonight
I will keep you safe

Well I will keep you safe I will keep you safe
