

Fly

Whipping Boy

Fly, I love you
Like no other (queen)
(It's everyday)

Fly, we're gonna float on the breeze
Touching

Fly, I want ya, I need you
I'm always going to be there
Beside ya when you need me
Or just be friendly
(be friends with me)
The day begins
The people breath
I have to (write my name) again

(We'll always be so happy)
on the banks of the grand canal

(turns and closed the door)
Cradled in my arms your charms
I don't know what you want but me
My jealous heart won't set you free
(tying knots and something with ots - e.g. plots)
Waiting for the (noose) (news) (leaves)
But I'm (breaking free)
