

Warning

Wipers

There's no use fighting now
These endless days
Maybe later on
We will change it's ways
One man
Don't know what to say
But I found that I could find it on a Summer's day

Looks like fighting now
For things that wont go away
Since you know the way

No use fighting now
These lips of fire
Maybe later on
Things will set us higher
One man
Dont know what to say
Then I found that you can find me on a Winter's day

These lips are fighting now
Doesnt seem to want to run away
Since you know the way

There's no use fighting now
This endless faith
Maybe later on
Things will change their ways

Spread this
Don't know what to say
But I found that you can find me on a Winter's day

The lips are fighting now
Doesn't seem such a long way
Since you know the way
