

## Sing for Me

Yellowcard

Look at me, listen close  
So I can tell you how I feel before I go  
Just a year, it's not much time  
For me to show you  
I am proud that you are mine  
I wish I had known  
The future in my heart was just about to start

Say tomorrow, I can't follow you there  
Just close your eyes and sing for me  
I will hear you, Always near you  
I'll give you the words  
Just sing for me

Every lock, on every door  
I put them there  
To try and hide you from the world  
And you kicked, yeah you screamed  
You never understood you're everything to me  
I just hope you know  
The future in your heart is just about to start

Say tomorrow, I can't follow you there  
Just close your eyes and sing for me  
I will hear you, Always near you  
I'll give you the words  
Just sing for me

No looking back when I am gone  
Follow your heart its never wrong  
No looking back when I am gone  
Don't second guess the note you're on

Out of time, all out of fight  
You are the only thing in life that I got right

Say tomorrow, I can't follow you there  
Just close your eyes and sing for me  
I will hear you, Always near you  
I'll give you the words  
Just sing for me
