

Shining Like the Sun

Yeng Constantino

Have you ever felt like day just can't get better?
I feel it when you get a little bit closer
Oh woh oh you're standing in front of me
Oh woh oh you're taking your chances
Oh woh oh a leap of faith into surrender

Cause it's you smile I cannot resist
This moment feels like more than just summer bliss
You make me want to smile like I never did
We're shining like the sun
We're shining like the sun
We're shining like the sun

All the reasons you had to slow down now don't matter
I'm ready now, I am ready, baby are you ready
Oh woh oh hold my hands with yours
Oh woh oh look deep into my eyes
And you say those words that will make you mine oh mine

Cause it's you smile I cannot resist
This moment feels like more than just summer bliss
You make me want to smile like I never did
We're shining like the sun
We're shining like the sun
We're shining like the sun
Sun, sun, sun

I'm ready now, I am ready, baby are you ready
I'm ready now, I am ready, baby are you ready
I'm ready now, I am ready, baby are you ready
I'm ready now

Cause it's you smile I cannot resist
This moment feels like more than just summer bliss
You make me want to smile like I never did
We're shining like the sun [x5]
Sun, sun, sun
