Brand - New - Life

Young Marble Giants

So bad when you went away
Nothing I could do or say
And now we are a lonely two
Sit at home and watch the tube

I've been hurt before, Sorrow knocking on my door Pain

And so I make a brand-new-life Fashioned out of brand-new strife And when I hear the doorbell ring I can never let them in to me

Pain is in me every day
When you went it came to stay
Come and be a cure for me
Make the tears come out of me

So bad when you went away
Nothing I could do or say
And when I hear the doorbell ring
I can never let them in to me
